

# CREATE A 16 PAGE BOOK USING ONE PIECE OF PAPER!

1. Using an 8 1/2 x 11 inch piece of paper, fold in quarters as shown by the dashed ( - - ) lines in the figure to the right. (Fold as precisely and sharply as possible).

2. Cut on the ( •••• ) lines

3. Pinch the end of each cut, and start making accordian fold in between the pinches.

4. Look at the example below to get an idea of how the book will look when you are done folding it.

5. I like to create separate covers for the front and back out of a stiffer material (like a cereal box). I cut out my rectangles to be slightly larger than the book pages, cover the cardboard with material, and then glue the covers on.

**HINT : NOTICE THE DIRECTION OF THE WRITING OF THE PAGE NUMBERS AND THE DIRECTION OF THE SMILE FACES IN THE EXAMPLE SHOW AT THE TOP OF THE PAGE.. USE THE EXAMPLE WHEN YOU ARE LAYING OUT YOUR BOOK PAGES ON THE COMPUTER.**
